

Our NHS is Broken and Floundering.

Come and hear how we can start to fix it.

Berkhamsted Town Hall 7:30 pm Wednesday 14 Sept. 2022

As the project designer and project manager for the "Outstanding" CQC rated Hospice of St Francis, Gordon Yearwood firmly believes that all our healthcare services should and could be of a similar high standard. He considers this to be an essential element of an advanced society.

Sadly, his analysis shows, that despite being evermore costly, our country's national health services perform very poorly in relation to other similar developed countries and that our local hospital provider is consistently one of the worst performing hospital Trusts in the country.

We need a new and better solution for West Herts.

West Herts 21 Century Hospital Solution (a patient centred, not for profit organization) will be holding a public presentation on 14 September 2022 at 7:30 pm at the Town Hall, 196 High St, Berkhamsted, HP4 3AP.

You are all invited to come along and hear much more about the 21st century healthcare solution for all the people of West Hertfordshire and how you could help achieve this.
